Education

Master's degree, Applied Economics and Markets 2024- 2026
University of Bologna, Italy

Pursuing advanced studies in applied economics with a strong emphasis on data-driven methods. Developing expertise in econometric modeling, machine learning, and statistical analysis using tools such as STATA, R, Python, and EViews

Bachelor's degree, Mathematical methods and operations research methods in economics 2018 - 2022
Kyrgyz-Russian Slavic University, Kyrgyzstan

Studied economics through a strong quantitative lens, with a focus on applied mathematics and data analysis. Gained hands-on experience with tools such as Excel, Access, SPSS, EViews, and MATLAB for statistical modeling, econometric analysis, and data-driven decision-making.

Experience

Intern in the Department of Statistics and Machine Analysis 2025
NUR Telecom LLC - Kyrgyzstan, Bishkek

Worked with large volumes of telecom data, optimizing data pipelines and improving data quality across the department. Developed a control report on company services in Tableau and contributed to a migration and optimization plan for transitioning corporate reporting to a BI platform.

Data Analyst | Lead Data Analyst 2022 - 2024
NUR Telecom LLC - Kyrgyzstan, Bishkek

Grew from Data Analyst to Lead Data Analyst over two years, taking on broader responsibility for reporting pipelines, data accuracy, and business performance analysis. Delivered regular forecasts and KPI insights that helped leadership understand key deviations and drive informed decisions.

Market research analyst 2021 - 2022
M-Vector LLC - Kyrgyzstan, Bishkek

Managed the full research cycle - from developing and testing questionnaires to delivering final analytical reports and recommendations to clients. Handled client communication, built project timelines, and worked with databases and visualizations to ensure insights were clearly presented and actionable.
